BREEAM INTERNATIONAL ASSESSOR TRAINING COURSE
SCHEME 2016
WARSAW, 5TH-7TH SEPTEMBER 2017

Registration:

<http://www.bre.co.uk/eventbooking1.jsp?id=15085>

This new course will enable new entrants to become BREEAM International Assessors for the newly launched 2016 scheme.

Details:

Delivery of this course is achieved by using a blended learning approach of on-line pre-course materials in the form of digital modules, followed by interactive classroom workshops and examinations.

On successful completion of the course and examinations, you will emerge as a fully qualified BREEAM International assessor.

Please note: if you are an assessor who previously qualified and became licenced under the 2013 scheme you will still be able to assess under the 2016 version.

This scheme uses calculation tools which run in MS Excel with macros. Macintosh computers are unable to use this function so you will need access to a PC to complete these assessments.

EVENT PROGRAMME

Online learning

BREEAM International Assessor training commences with approximately 30 hours of interactive online modules delivered through our dedicated online learning portal. You will be led on a journey into BREEAM by way of interactive content and technical presentations, which will gradually build your knowledge and confidence within the BREEAM International 2016 scheme. You can complete these modules at your own pace, and there is on-line support to help you. Each module concludes with an automated quiz to allow you to track your progress and attainment throughout the course.

- Module 1 – An introduction to BREEAM
- Module 2 – The BREEAM International and Bespoke processes, reporting and evidence requirements

- Module 3 – Technical modules
- Management, Health & Wellbeing, Energy, Transport
- Module 4 – Technical modules
- Water, Materials, Waste, Land Use & Ecology, Pollution

Classroom training

Following the online learning phase, you will attend 2.5 days of classroom based learning which will consolidate your understanding and newly acquired knowledge. Through workshops and group learning activities, we will refine your understanding gained through the online training, before moving on to the more complex and technical aspects of the scheme. You will be fully supported by a dedicated tutor for each module. Training is delivered by leading BRE expert technical trainers.

2.5 day classroom based learning

Day 1 – Brief initial test to ensure you have completed the online self-study modules

- Review of the BREEAM International processes
- Focus on a couple of the most complex issues within the scheme

Day 2 – Tailoring BREEAM International for different building types

- Selling BREEAM
- Relationship between different BREEAM Schemes
- BREEAM International exam

Day 3 (half day)

- Question and Answer Session
- BREEAM General Understanding exam

Examinations

You will undertake two multiple choice examinations. Both exams are open book, allowing you to refer to any notes or documentation that may assist you. Assessors will need to pass both examinations to become qualified within the scheme. Please note that you must present acceptable photo identification (ID) for admission to the examination. This may be either your passport, driving licence or EU ID card. Please note that without photo ID you will not be permitted to undertake the examinations.

Please note that once qualified, to offer and carry out BREEAM assessments through to certification you or your organisation must hold the relevant BREEAM licence. To become licensed, all assessors/assessor organisations are required to hold a minimum level of professional indemnity insurance. Furthermore, depending on the scheme chosen, there may be an annual fee payable to BRE Global to hold the required BREEAM licence. For more information please see our FAQ page or contact us at breeam@bre.co.uk

BREEAM Membership opportunity:

After successful completion of this course you can register as a BREEAM Member with the BRE Academy. The BRE Academy BREEAM Membership is a badge of recognition that highlights your level of knowledge and shows your commitment to realising the benefits of BREEAM.

As a member, you will join a group of growing and experienced individuals across a variety of areas within the built environment.

Specific benefits you will be able to take advantage of include discounts on BRE Academy training courses, FREE monthly webinars and exclusive discounted BRE services. Find our more information about [BRE Academy membership](#) to see if you qualify!

FEES

- £ 1995
