LEED exam is broken down by LEED credential. First you have to take the LEED Green Associate Exam, and then you can select a LEED specialty and take that exam to become a LEED Accredited Professional in the respective specialty area. For example a LEED AP Homes, or a LEED AP Commercial Interiors, or the most popular LEED AP Building Design and Construction (new construction) BD+C. You have to do the LEED GA before moving forward. You do not have to have project experience to take the exams. There are no prior eligibility requirements. Anyone can prepare and take it. All of this will be covered in the workshop.

LEED Exams are offered at the following locations:

8181: ZAGREB, CROATIA

ALGEBRA LTD, ILICA 242

GROUND FLOOR, BUILDING NO. 6
